Helpful Tips to Stay Safe from Scams!

Use extra caution with virtual wallets.

If you have card info stored in your phone, and a fraudulent link or pop up is clicked on, the card information can be compromised instantly causing substantial financial losses.

Do not shop using ads on Facebook, Instagram, Snapchat, etc.

These are nearly all scams and can result in phones being hacked, card info being compromised, identity theft, and financial losses.

Do not click on ads that pop up online.

If it seems too good to be true – that's because it is. Only shop online on reputable websites and valid sites for stores you seek – target.com, kohls.com, etc. Pop ups are frequently associated with malicious activity online – as well on your social media apps.

Review your account daily.

It is your responsibility to track your balances and transactions to assure that only your own authorized activity is taking place.
